

TECHNICAL DATA SHEET (T. D. S)**HIGH FLAT ZL-16****【Feature】**

- Non Aromatic dispersion
- Keep Transparency

【Component】

Wax	Polyethylene
Solvent	n-Butyl acetate

【Typical properties】

Solid content	10.0%
Maximum particle size	18μm

【How to use】

- Add in the final production process.
- Standard addition amount is 5-20%.
(Recommendation 5-10%)
- Please change addition amount according to application and purpose.
- Can be mixed easily by using disper.

【Remarks】

- Handle with care to ventilation and safeguard to avoid poisoning from inhalation of solvents.

【Packing】

Net 15 kg in 18L steel can.
